Introduction to ECE 2031: Digital Design Laboratory
Personal Information (GTA)

- See powersof2 or UPCP site for semester-specific GTA information.
Undergraduate TAs (UTAs, LTA)

- Immediate, one-on-one help here in lab with general technical questions and problems.
- Get to know them, because they are your most accessible resource!

*Artist’s depiction of TAs introducing themselves:*
Lab Availability

- During **scheduled lab sections**, students enrolled in that section take precedence, but students from other sections **may** use available stations.
  - EXCEPT during the quiz (X:00-X:15), during which only students in that section are allowed in the lab.

- During **open hours**, any 2031 student may use the lab on a first-come, first-served basis.

- Students are not permitted in the lab at other times.
Beginning of Each Lab

- The first 15 minutes of lab (X:00-X:15) are used for collecting assignments that are due, taking the pre-lab quiz, and getting pre-lab check-offs. Make sure you arrive on time!

- When you come in:
  1. Choose a station and get out your completed pre-lab work and any assignments that are due
  2. At X:00, turn in assignments to me and pick up a pre-lab quiz
  3. While working on the quiz, put up the yellow cup to get your pre-lab work checked off

- If your pre-lab check-offs are not complete by X:15, half of those points will be counted off your grade for the lab results.
Check-offs

- Each lab has a check-off sheet specifying what needs to be verified by a TA. It is in the back of the manual.

- Check-offs can be done at any time before you turn in the results, by any TA, in any section (including open hours).
  - If prelab check-offs are not completed before X:15 in your section, they will be late, **but they must still be done**.

- TAs sometimes make mistakes; **students are responsible for making sure the results they turn in are correct**.
  - If you’re not sure if something is correct, ask questions.
Turning in Work

- **NO LATE ASSIGNMENTS!**

- All quizzes and assignments must be handed in during the first 15 minutes of lab. Assignments are late as of X:15:01, and will not be accepted (barring circumstances exempted by institute policies).

- I will not give you a quiz until you have turned in your assignment or you have told me that you are taking a zero (you’re not turning it in).

- If you have an anticipated absence, arrange with me to turn in your assignments early.
Semester Assignments

Practical Final 25%

In-class Exam 20%

Prelab Quizzes 25%

30%

Lab Reports (1200)
First WA (500)
Proposal (300)
Logbooks (100)
Live Demo (500)
Presentation (200)
Final Report (500)
Weekly Lab Results

When handing in Lab Results, order materials as follows:

1. Check-off sheet for particular lab (in the lab manual)
2. Completed and signed evaluation sheet (from UPCP website)
3. Results (in the order given in the lab manual and UPCP site)

This is so that I can quickly see that you have included everything as you turn it in.

Remember: check-off sheet, evaluation sheet, results.
Formatting Results and Reports

- Formatting is not arbitrary—we follow IEEE guidelines.

- Refer to the UPCP website for formatting rules and examples of properly labeled figures and tables.

- Pay attention to:
  - Capital letters
  - Bolded words
  - Periods
  - Label position

Figure 1. Internal gate layout of 74LS04 quad nand chip.
Academic Misconduct

- We adhere to the Office of Student Integrity guidelines. All violations of the Student Conduct Code will be reported. [http://www.osi.gatech.edu](http://www.osi.gatech.edu)

- **Group collaboration** is only permissible on assignments that are specifically designated as group projects.

- Students are expected to work individually on all other assignments to ensure that they are learning the material.
Help In Lab

- For questions and check-offs, place the proper cup on top of your oscilloscope:
  - Yellow cup = check-offs
  - Red cup = questions

- A TA will come to you as soon as possible to answer questions or give you a check-off.
Help Outside of Lab

- For technical questions, post to Piazza. You can also email your LTA or Kevin Johnson if necessary.

- For questions on non-exam grades or assignments, email or come see me (your GTA).

- All of us (Dr. Collins, Kevin Johnson, and all GTAs) are available by email, during office hours, or by appointment. Don’t hesitate to contact us!

- If you’ve lost something (flash drive, etc.), come to the lab and any TA can check the lost & found.
Bulk communications

- We send announcements to the entire class through Piazza. Make sure you register and add ECE2031!

- There are already some notes there, so check the history when you sign up.

- Everything we send is important to your success in this class. We don’t spam you. Read everything!
